How we can assist you

FSR AI is the main point of contact during your Artificial Intelligence studies at BTU. We are all students from the international master program in Artificial Intelligence that were elected by your fellow student colleagues. Our responsibilities include, but are not limited to:

Advisory on modules selection and registration.

Promoting events

Contact Us

We are located in the building **VG1C** on the ground floor room number **0.23** .

If you want to meet us in person, you can walk in to our office on weekdays at 09:00- 12:00

- Mail us via fsr-ai@b-tu.de
- Instagram: **@fsr_ai**
- Website <https://fsr-ai.de/>

We will send the freshman guide presentation after the orientation

VG1C 0.23

Office Hours 09:00- 12:00

(Monday & Thursday)

EVENTS

March
Semester-end
Party

April
Internship Scouting

May
ML Workshop

July
Guest Lecture

UPCOMING

EVENTS

A.I Movie Marathon

November - December

6 A.I Themed movies is planned to screen at university

Hackathon

December

Take a chance to Code..Code..Code for 9hours straight

1

GET APPOINTMENT AT
THE CITY OFFICE

2

CITY REGISTRATION

3

APPOINTMENT AT THE
BANK

4

OPEN BANK ACCOUNT

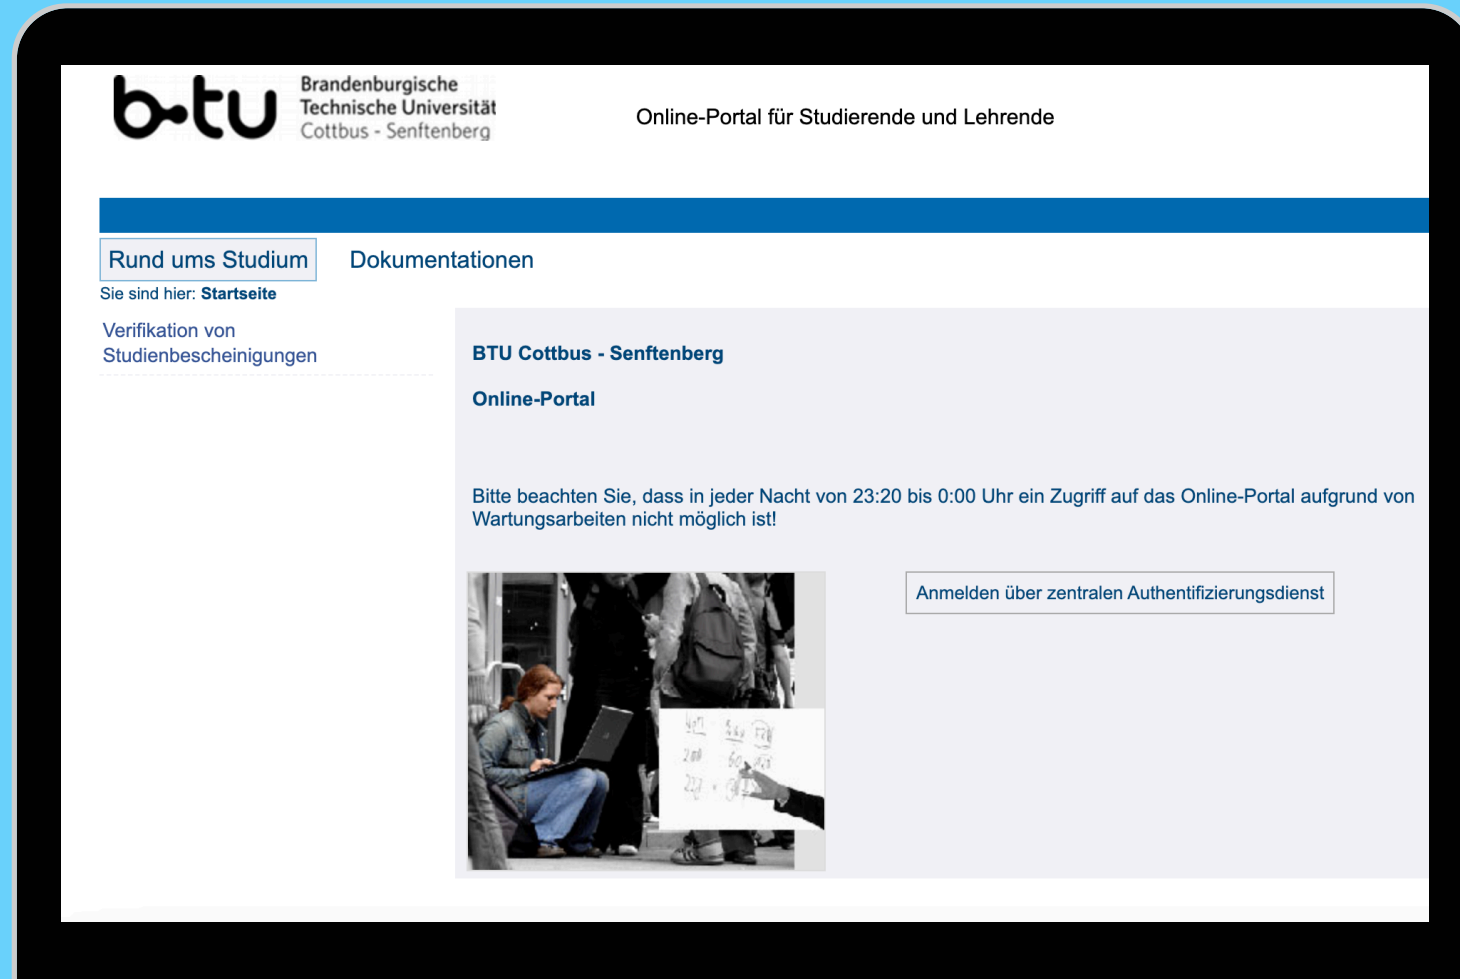

FIRST STEP IN COTTBUS

- 1) Find the link to [CITY OFFICE](#)
- 2) Bring your passport and confirmation of accommodation (Wohnungsgeberbestätigung).
- 3) You can choose any bank, but check their website to get an Appointment. Our recommendation is Sparkasse.
- 4) Bring your passport, city registration, and matriculation document. Students up to 26 years old generally do not pay any fees.

Course Curriculum

Examination portal

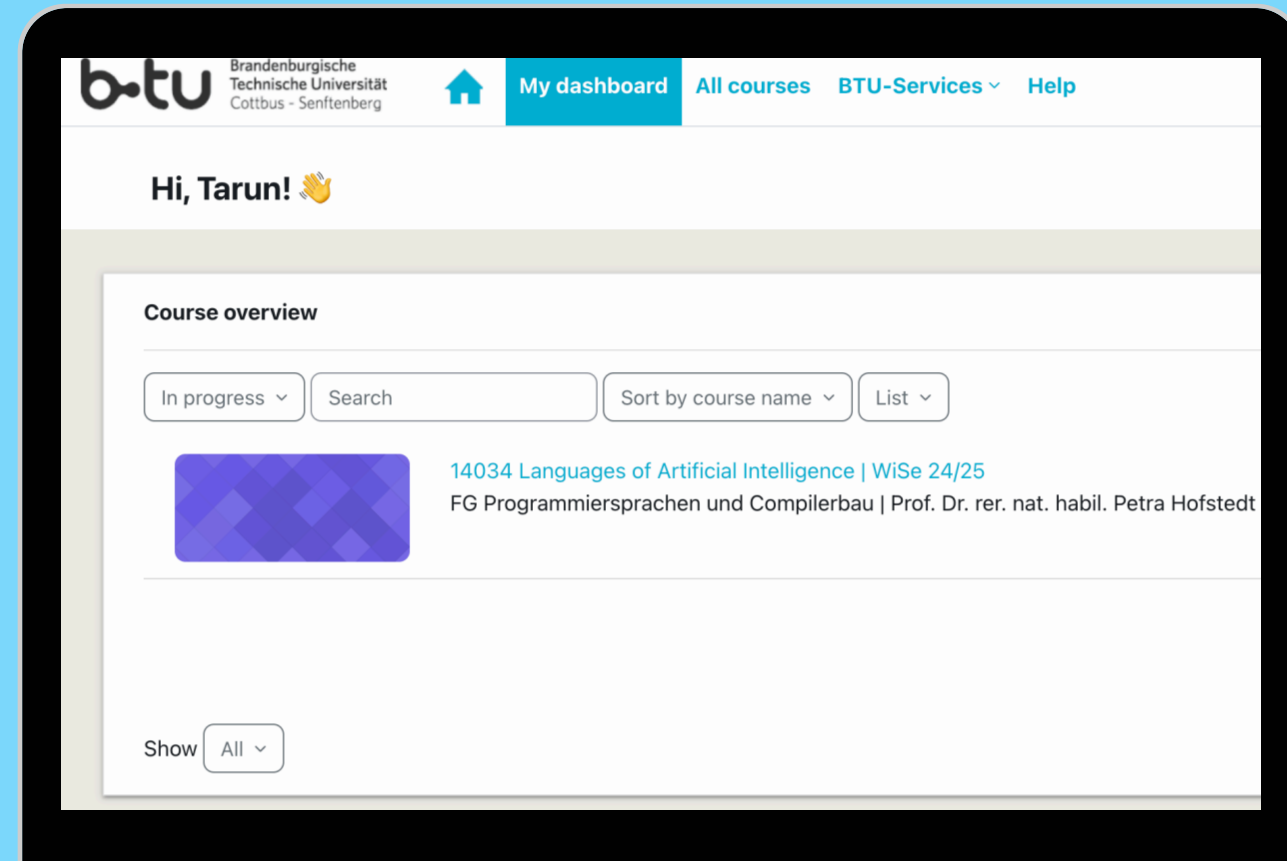

- There are two types of examination when choosing a module:
 - **MCA** (continuous assessment)
 - **MAP** (Prerequisite + Final Module Examination)
- You have to register to all the examinations you plan to write in that semester during the first 3 weeks of classes. **If you do not register in the Online-Portal on time, you cannot write the exam!**
- It's possible to deregister MCA examinations up to 3 weeks after the beginning of classes, and MAP examinations up to a week before the examination period.
- There are modules with limited number of participants, in which you have to register 2 weeks before the beginning of classes.

Study plan

Study Plan for Master Course: Artificial Intelligence (PO 2022)

Name	Enrolment Number	Mentor				CP	Total
		1. Term WS/SS 2024	2. Term WS/SS 2025	3. Term WS/SS 2025	4. Term WS/SS 2026		
Complex: Advanced Methods	14015- Linear Algebra	13863 – Mathematical Statistics	14015- Intro to AI Math			≥ 6	≥ 74
Complex: Knowledge Acquisition, Representation, and Processing	11881 – Data mining	13842 – Virtual reality and agents	13840-Data warehouse			≥ 6	
Complex: Learning and Reasoning	13942- Psychophysiology	1335 - BCI	1187- Neural Network and Learning Theory 13846 – Learning in real and virtual humans			≥ 6	
Complex: Seminars or Laboratories	13869 -Laboratory	13979 - Seminar				6 – 12	
13602: Internship				10		10	10
13600: Master Thesis						30	30
General Studies (at least 6 CP)					12818 – Basic German for Student life		≥ 6
Total	24	26	26	16		122	≥ 120

Mind-Map

Courses with Deadlines

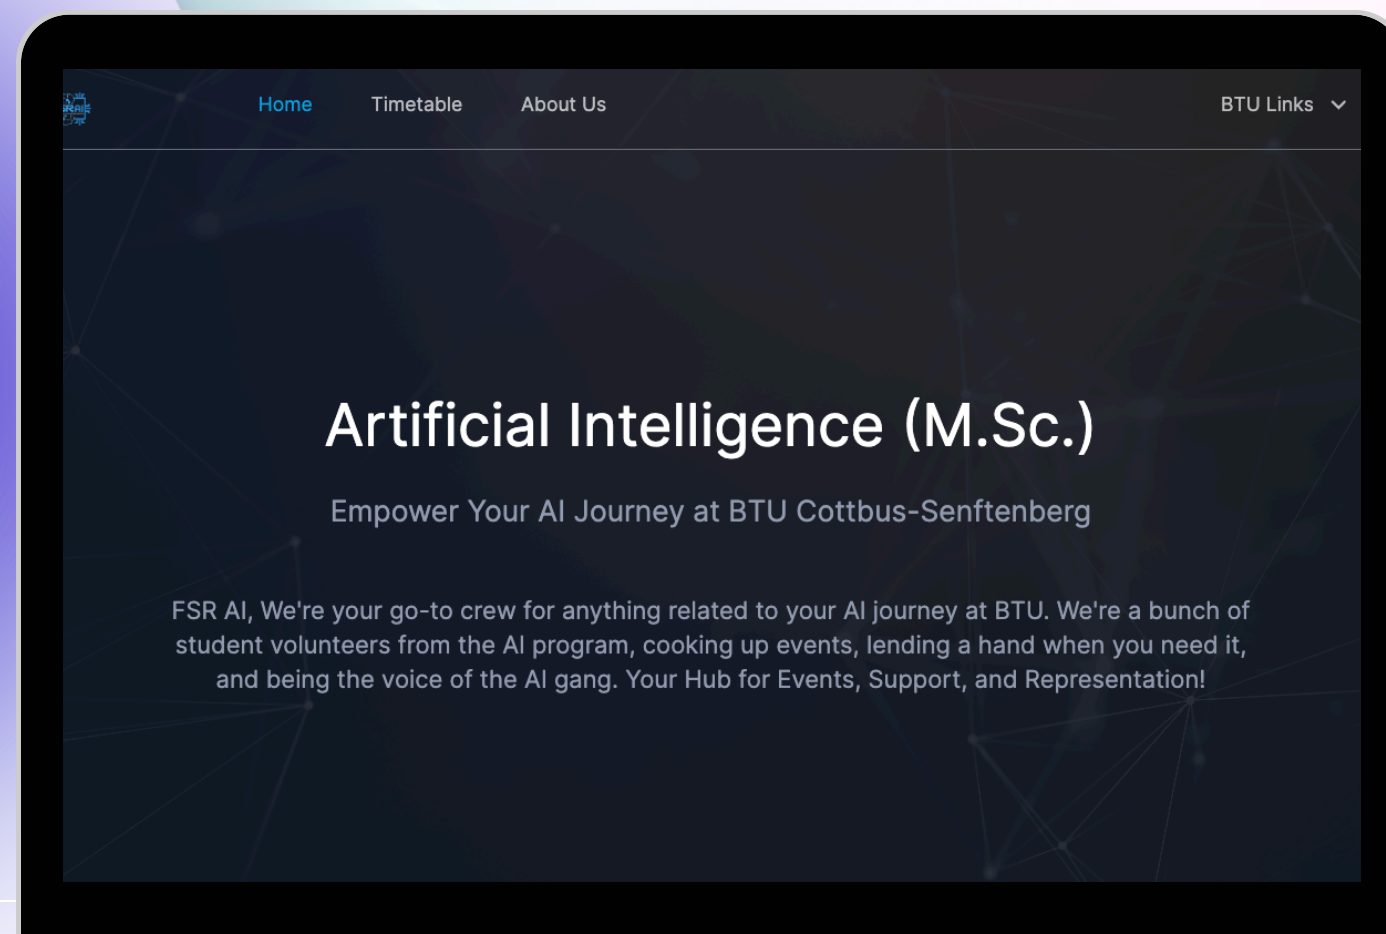

Course Number	Course Title	Seat Capacity
11881	Foundations of Data Mining	80
13335	Brain-Computer Interfaces (BCIs) for Neuroadaptive Technology	72
13500	Introduction to Neural Signal Analysis	100
13813	Logic in Databases	80
13849	Introduction to Computational Neuroscience	100
13906	Data Exploration and System Management Using Artificial Intelligence / Machine Learning	20
13942	Foundations of Psychophysiology	72
14013	Conversational Artificial Intelligence: History, Application, Future	30
14034	Languages of Artificial Intelligence	50

Apply from 30th of September through the 13th of October
